

Dear Member,

We are pleased to inform you that you can change Axles and Weight remotely.

Are you qualified?

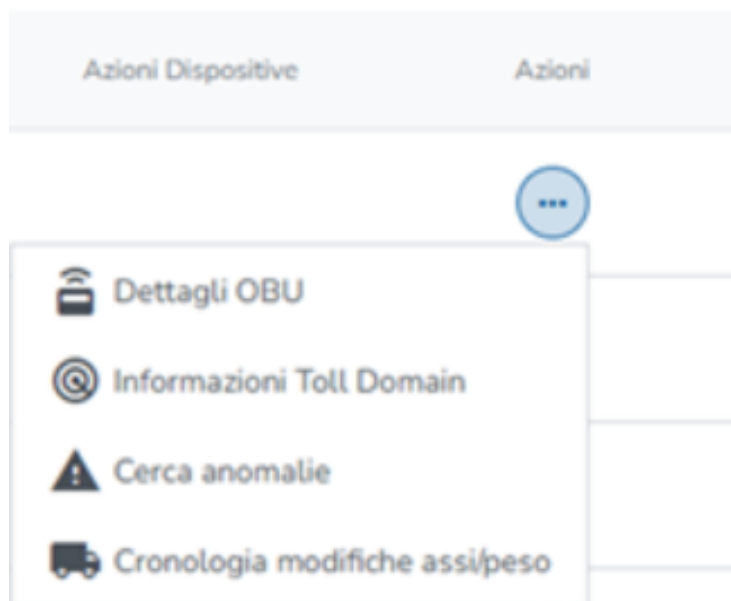

Only if your devices have already received the OTA update.

You can make the change remotely via the Telepass Truck portal.

What do you need to do?

You can set axles and weight remotely by following these steps on the HUB4Trucks Dashboard:

1. Select the "Actions" button for the specific OBU.
2. Click on "OBU Details".

1. In the configuration details window, click on the pencil icon in the second section to edit axes/weight.

OBU Stato – Dettagli – TEST123

OBU ID
000590985866771

 Stato alimentazione Spento Ultimo aggiornamento 25-06-2025 14:49	 Stato Led ⓘ Pedaggio non OK Ultimo aggiornamento 25-06-2025 14:49
 Asse Totali 5 Ultimo aggiornamento: 25-06-2025 14:04	 Classe di peso 12 - 18  
 Targa TEST123	 Nazione DE
 Strumento di Autotest Non eseguito	 Classe di inquinamento Euro 6
 Classe di emissione CO2 1	

Note: If you don't see the pencil icon, your OBU hasn't received the OTA update yet, so you'll need to wait.

Ask for the activation of the Telepass Truck portal to the Colsea Services Office at the e-mail address servizi@colsea.it
